Note:

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau.

All denominators use US Census data from 2002.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

2a None

Age: None

Race: For this reporting period, the category Asian includes Asian and Other Pacific Islanders. Also, anyone who is multi-racial will be in the Other category. Finally, if a person answers that they are of Hispanic origin, then this takes precedence over any other racial/ethnic identification. Therefore, the Hispanic count for Table 2a is identical to the Hispanic count on Table 2b. In addition, if you add up all of the other ethnicities not including Hispanic you get a non-Hispanic count.

Overall: None

2b None

Age: None

Race: The Hispanic count will match Table 2a and the Not Hispanic or Latino count equals the total of all the other ethnicities from Table 2a. The missing/unknown also equals the missing/unknown from Table 2a.

Overall: None

Community Workgroup Recommended Dropping reporting on Discharges for Community Programs

Overall Length of stay is calculated on the patient's entire length of stay. However, for Other Psychiatric Inpatient settings we only receive a record for an episode once a patient is discharged from the setting. Our data for Other Psychiatric Inpatient was updated 5/2004 so we would have all discharges through this period which would include all clients who were in Other Psychiatric Settings in FY03. Other Psychiatric Inpatient includes community hospitals and evaluation and treatment centers.
